INTEGRATED SYSTEM AND MANAGEMENT TECHNOLOGY

VOLUME 1 NO 2 JULI 2026

JOURNAL FOCUS AND SCOPE

Integrated System and Management Technology is a peer-reviewed academic journal that focuses on the integration of information technology and management practices to enhance organizational performance, governance, and strategic decision-making in digital environments, encompassing topics such as IT governance and IT service management, enterprise architecture and integrated systems, technology and innovation management, decision support and executive information systems, ERP, CRM, and supply chain systems, digital enterprise and smart organization models, as well as risk management and technology compliance. The journal is published in January, April, July, and October.

Articles published in Integrated System and Management Technology comprise original scientific research findings (top priority), novel scientific review articles (lower priority), and commentaries or critiques regarding existing publications. The journal accepts manuscripts in the fields of IT governance and IT service management; enterprise architecture and integrated systems; technology and innovation management; decision support systems and executive information systems; ERP, CRM, and supply chain systems; digital enterprise models and intelligent organizations; as well as technology risk management and compliance.

Articles featured in Integrated System and Management Technology have undergone a peer-review process. The journal accepts only original research findings (top priority) and novel scientific review articles (lower priority). The decision regarding the acceptance of a scientific article rests with the Editorial Board, based on recommendations from peer reviewers.

JOURNAL INDEXING INFORMATION

Integrated System and Management Technology (E-ISSN: 3123-9811; https://journal.apjikom.or.id/index.php/ISMaT) is a peer-reviewed journal slated for indexing in several reputable databases, including Google Scholar, Garda Rujukan Digital (GARUDA), Copernicus, Dimensions, ORCID (Connecting Research and Researchers), and Crossref (DOI).

INTEGRATED SYSTEM AND MANAGEMENT TECHNOLOGY

VOLUME 1 NO 2 JULI 2026

PREFACE

Integrated System and Management Technology is a peer-reviewed academic journal that focuses on the integration of information technology and management practices to enhance organizational performance, governance, and strategic decision-making in digital environments, encompassing topics such as IT governance and IT service management, enterprise architecture and integrated systems, technology and innovation management, decision support and executive information systems, ERP, CRM, and supply chain systems, digital enterprise and smart organization models, as well as risk management and technology compliance. The journal is published in January, April, July, and October.

Reviewers evaluate submissions based on originality, clarity of presentation, and contribution to the field or body of knowledge. The journal publishes research articles, review articles (including literature reviews), case reports, and concept or policy articles covering topics such as IT governance and service management, enterprise architecture and integrated systems, technology and innovation management, decision support and executive information systems, ERP, CRM, and supply chain systems, digital enterprise models and smart organizations, as well as technology risk management and compliance. Submitted articles must be original works that have not been previously published. All submissions undergo review by a team comprising both internal and external reviewers.

The Editorial Board is committed to continuously enhancing the journal's quality so that it may serve as a significant reference in the advancement of the field. We extend our deepest appreciation and gratitude to the peer reviewers, Editorial Board members, and all parties involved in the publication of this journal.

Sincerely,

Editor-in-Chief
